SOUTH BEND-LAPORTE-ELKHARTH INDIANALIMILK MARKET NEWS

NATIONAL AGRICULTURAL LIBRARY,

AUG 26 1963

Market Administrator 220 South William Street P. O. Box 216 South Bend 24, Indiana

Federal Order No. 31 U. S. Department of Agriculture Agricultural Marketing Service Telephone: ATlantic 8-2571

Issued for Information of Producers
Who Are Not Members of Cooperative Associations

Vol. VII, No. 7

July 1963

### JUNE BASE PRICE \$3.68

Dairy farmers will receive a base price of \$3.68 for June 1963 deliveries of Grade A base milk to handlers under the South Bend-LaPorte-Elkhart, Indiana, milk order. This base price is based upon a butterfat test of 3.5 percent, and will be adjusted by a differential of 7 cents for each one tenth percent that tests vary above or below the 3.5 percent standard. This price is 4 cents higher than the base price of June 1962.

### JUNE EXCESS PRICE \$2.96

June 1963 deliveries of Grade A excess milk to handlers under the South Bend-LaPorte-Elkhart, Indiana, milk order will be paid for at the rate of \$2.96 per hundredweight for 3.5 percent milk and adjusted by the same differential of 7 cents as is used for base milk. These minimum prices are subject to a 4 cent per hundredweight marketing service deduction, together with the authorized hauling charge. This price is 7 cents higher than the excess price for June 1962. For comparative purposes, a uniform price of \$3.58 per hundredweight was computed, which is 4 cents less than the computed uniform price of May 1963 and 4 cents higher than for June 1962.

#### PRODUCER RECEIPTS

Daily production when compared with June 1962 is almost the same, but when compared with May of 1963, it shows a 6 percent decrease. This 6 percent decrease is 1.5 percent less than it was a year ago. Drought conditions the last half of June this year has helped bring on this sharp decrease in production.

#### CLASS I SALES

A decline of 11 percent in daily Class I sales is almost 3 times as much decline as was recorded last year from May to June. Class I sales have been running almost the same as the previous year up to this month. Another month of data should be studied before any conclusion can be drawn as to a trend.

#### RECOMMENDED DECISION

A recommended decision as it pertains to the removal of the base-excess plan in this order has been issued July 11, 1963. If this amendment goes through, there will be no base setting period for the fall of 1963.

#### CLASS I PRICE

The Class I price for the July 1963 delivery period will be \$4.16 per hundredweight for 3.5 percent milk. This price was computed by adding \$1.10 per hundredweight to the basic formula price (\$3.08), minus the 2 cent supply-demand adjustment. The supply-demand adjustment for the August 1963 delivery period will be a minus 6 cents.
